

## **PRESS RELEASE**

Issued: 28 November 2008

### **FOR IMMEDIATE RELEASE**

#### **Talee Talee release uSnap! game for iPhone**

**uSnap! is an inspired implementation of the well known card game, for players of all ages, old and young alike.**

It's great fun for parties and evenings with friends, you are never too old or too young for uSnap!

Using their in-house designed card engine, the game is graphically rich and offers 1 or 2 player modes. 1 Player allows the user to play against the computer, 2 player is very much like the traditional 'table-based' arcade games.

Talee Talee are offering the game at a discounted introductory price until the 15th December 2008.

A video demo and screen-shots are available from [www.taleetalee.com/uSnap](http://www.taleetalee.com/uSnap).
